Metal machining

Metal machining Introduction :

We are not only manufacture blank casting parts, but also provide machining processing service with complete assembly to customers, metal turning, milling, drilling, tap, and other high-precise CNC machining operations.

It covers stainless steel casting machining, steel casting machining, aluminum die casting machining, forged parts machining and stock bar material machining (brass, aluminum, steel, ductile iron etc).

With our complete quality control system and advanced equipments, we can machine the parts in very closed tolerance and high grade surface quality!

Welcome OEM manufacture!

Measuring Equipment

Down load:  [Metal machining.](#)  [Metal machining](#)

Machining

Aluminum machined parts

Brass machined parts

Brass machining parts with chrome plated

Brass machining parts with plating

CNC Machined castings

Machined forged parts pipe fittings

stainless steell machined castings

Nuts

Steel machined parts with zinc plated pipe joints

Steel machined parts pipe fittings with zinc plate
