Valve castings and pipe fittings

Valve castings and pipe fittings Introduction :

We manufacture a wide range of high precision parts for valve applications and pipeline fittings field.

Valve parts, it covers the castings of valve body, valve bonnet, valve disc, butterfly disc, wedge etc in both stainless steel and carbon steel material, and with all possible machining service.

Our high quality machined, polished, plated valve balls is prominent in our valve business field, it can be Made by the process of investment casting, sand casting , bar stock, or forging in different requested material which is available in kinds of Stainless Steel, Carbon Steel and gray iron.

Pipeline fittings, it covers the castings of nonstandard pipe, elbow, tee, clamps, connects / joints, flange with strict machining operations, all possible material is available to work. also, we supply the above parts by forged as customer requested.

Welcome OEM manufacture!
